Dear Medicaid Provider:

The Agency for Health Care Administration (Agency) has entered into a contract with an entity known as Simply Better Health, to function as a managing entity for the MediPass Program. As the managing entity, Simply Better Health will perform prior authorization of Advanced Outpatient Diagnostic Imaging services. Outpatient CT, CTA, MRI, MRA, and PET studies, previously authorized by Med.Solutions, Inc. will require prior authorization from Simply Better Health.

Simply Better Health, in coordination with eQHealth Solutions, Inc., will be hosting face-to-face and webinar training sessions. In the next couple of weeks, you will be receiving additional information and communication from Simply Better Health. Training dates and venue locations for each training session will be provided in the information you will receive from Simply Better Health. These sessions will provide you with information on how to request a prior authorization for Advanced Outpatient Diagnostic Imaging services from Simply Better Health.

The Agency will provide periodic updates on this implementation and transition through the Florida Medicaid fiscal agent’s Web Portal and Medicaid Health Care Alerts. To learn more about Simply Better Health, please visit their website at http://www.simplybh.com, where you will find helpful information.

We appreciate the services you provide to Florida Medicaid recipients.

Sincerely,

Melanie Brown-Woofter, Chief
Bureau of Health Systems Development
