

Recipient Data Match

The following data format is required for a **Recipient Data Match** against the Florida Medicaid Recipient Eligibility File. The CD sent to HP must be in a flat fixed length file with no delimiting characters between fields. Do not include headers, footers or notes in the input file.

<u>Input Record</u>	<u># of Characters</u>	<u>Format</u>	<u>Position</u>
YOUR-STUFF-FILLER	11		1 - 11
PROVIDER-ID	09		12 - 20
RECIP-SSN-NO	09	NO DASHES	21 - 29
RECIP-LAST-NAME	12		30 - 41
RECIP-FIRST-NAME	12		42 - 53
RECIP-MI	01		54
RECIP-BIRTHDATE	08	YYYYMMDD	55 - 62
ADMIT-DATE	08	MMDDYYYY	63 - 70
DISCHARGE-DATE	08	MMDDYYYY	71 - 78
RECIP-SEX	01	M OR F	79

The state has determined that to be considered a valid match, one of the following three matches against the Florida Medicaid Recipient File must be made: **(1) SSN and birthday**, **(2) SSN and name (first two characters of first name and first five characters of last name)**, **(3) Name (first two characters of first name and first five characters of last name), sex, and birthday.**

When requesting newborn information, either the SSN or Name must match what is in our database. For example, "BabyGirl Smith" will not match the name on the activated unborn record.

NOTE: If you do not have a valid Social Security Number for the recipient, please insert all zeros (0) for the Social Security Number.

<u>Output Record</u>	<u># of Characters</u>	<u>Format</u>	<u>Position</u>
MEDICAID-ID	09		80 - 88
MEDICAID-CHECK-DIGIT	01		89
RECIPIENT-ELIGIBILITY-BEGIN	08	MMDDYYYY	90 - 97
RECIPIENT-ELIGIBILITY-END	08	MMDDYYYY	98 - 105
ASSISTANCE-CATEGORY	04		106 - 109
MEDICARE-ID	10		110 - 120

Interpreting the results on the output file:

Data Returned	Result Meaning
HP will send all the above data fields back to the requestor and append both the recipient ID and eligibility data as shown in the file layout.	Valid Match, Eligible Recipient
If a valid match is found without eligibility, the Recipient's ID will be sent and zeroes are appended to the record in place of eligibility data.	Valid Match, Ineligible Recipient
If a valid match is not found, zeroes are appended to the record in place of the recipient ID and eligibility data.	No Match, Eligibility Unknown
